When it comes to food and wine at Maderas, we invite you on a trip... metaphorically speaking.

We're keeping it weird in Portland Oregon. Known as one of the world's most environmentally conscious cities because of its high walkability, large community of bicyclists, farm-to-table dining, and over 10,000 acres of public parks. We're bringing you the flavors and wines of this culturally rich city to create a very tasty Wine Wednesday Menu. We will be featuring a Complimentary Wine Tasting with the best wines of the Oregon! Bottles and cases available for sale at discounted pricing so be sure to secure your favorites of the evening for your cellar.
